Core Sales Growth	3%	1%	8%	3%

Commenting on the quarter, Stephan Tanda, President and CEO, said, "We are pleased to report sales growth in each of our business segments. Our Pharma segment, the leading provider of drug delivery systems to the pharmaceutical industry, grew sales despite a difficult comparison to the prior year, which included a significant amount of custom tooling sales related to a specific project. Demand for our products was broad-based across each end market, and was especially strong in the consumer health care and injectables markets. In our Beauty + Home segment, sales to the personal care and home care markets improved over the prior year, with new business wins contributing to the growth. We continue to offer the industry's broadest solutions portfolio and are encouraged by the sales improvements in Beauty + Home as we move forward with our initiatives to return this business to long-term sustainable growth. Our Food + Beverage segment had an excellent quarter as demand for our innovative dispensing closures increased in both the food and beverage markets. Offsetting the positive effects of our segments' sales growth were several factors that negatively impacted our earnings. We continue to address the operational challenges at our decorative facility in Europe, which had a negative impact on our quarterly results. We also experienced higher professional fees related to specific projects, increased raw material costs and negative currency transaction losses related to our operations in Argentina."

Aptar's reported earnings per share increased 1% to \$0.83 compared to \$0.82 reported a year ago. Current period earnings per share included a positive impact of approximately \$0.06 related to certain tax benefits compared to the prior year. Adjusting for changes in currency translation rates, comparable earnings per share for the prior year were approximately \$0.85.

Year-to-Date Results

For the nine months ended September 30, 2017, reported sales increased 3% to \$1.84 billion from \$1.79 billion a year ago. Core sales, which exclude the positive impact from acquisitions, increased approximately 2%. Changes in currency exchange rates did not have a significant impact on the sales growth.

Total Reported Sales Growth	1%	6%	4%	3%

(1) - Currency effects are approximated by translating last year's amounts at this year's foreign exchange rates.

Tanda commented on the year-to-date results, "We reported top line growth through the first nine months of the year and our Pharma and Food + Beverage segments have performed well, with sales growth in each end market. When we exclude the positive contribution from last year's acquisition, our Beauty + Home segment achieved sales in line with prior year sales. The diversity of our business continues to be a key strength of Aptar as we serve eight end markets across the globe."

For the nine months year-to-date, Aptar's reported earnings per share increased 10% to \$2.64 compared to \$2.40 reported a year ago. The nine months year-to-date earnings per share included a positive impact of approximately \$0.20 related to certain tax benefits compared to the prior year. Prior year adjusted earnings per share, which adjusts for costs related to the Mega Airless acquisition, would have been \$2.49.

Outlook

Commenting on Aptar's outlook, Tanda said, "Looking ahead to the fourth quarter, we expect revenue growth in each segment. We also anticipate certain headwinds will continue, including higher raw material costs and lower results at our decorative facility. We see these as transitory and thus not affecting our long-term view. We remain committed to returning Beauty + Home to profitable growth in the near-term and successfully implementing our new initiatives. Our strong balance sheet allows us to invest in new capabilities and technologies while we remain well-positioned to take advantage of strategic opportunities. We look forward to continuing to leverage our deep understanding of consumer trends and behaviors in order to create value-enhancing solutions for our customers and end consumers around the world."

Aptar expects earnings per share for the fourth quarter to be in the range of \$0.68 to \$0.73, excluding any costs related to our current initiatives, compared to \$0.77 per share reported in the prior year. Our guidance range is based on an effective tax rate range of 26.5% to 28.5%, which includes an estimate of a potential tax benefit from our adoption of the new accounting standard for share-based compensation. Prior year earnings per share included a positive impact of approximately \$0.08 related

to certain tax benefits. Adjusting for changes in currency translation rates, comparable earnings per share for the prior year were approximately \$0.82.

Cash Dividend

As previously reported, the Board declared on October 19, 2017 a quarterly cash dividend of \$0.32 per share, payable November 22, 2017 to stockholders of record as of November 1, 2017.
